James, now I'm convinced that to help you is a good thing !

And I'm ready to tell you everything I know about this inquiry that I started 30 years ago...

But I never had the possibility to finish it, that's why I'm so curious right now !

So, the house where you have already been was constructed in 1887 by the Stevensons family. And 30 years ago one of the members of this family, Mr. Robert Stevenson, committed suicide. He was an incredibly famous writer. But the reasons of his suicide are still unknown. And the question remains – if it is a real suicide...

And since then this house is haunted by a ghost. It is said that this is Robert Stevenson's ghost. In addition, there were a few weird disappearances, in 1991, 1994 and 1995. The missing people are men and they worked as estate agents.

Also, something important to mention is that nearly five times estate entrepreneurs tried to ruin the house, but nobody could do that. I tried to understand what was going on and to find missing people but there was an order to close the case.

I visited the house a lot of times, and, like you, I noticed a lot of strange things. Once I could make a recording. And then, while listening to it I became frightened, I heard somebody screaming and crying. I am convinced that it is a ghost. After that, different strange things started to happen in my life. That's why I left for Scotland and decided to forget about this scary and weird story...

Well, I told you in brief everything I know.

James, I count on you and I hope that you will solve this case.

Be in touch !

Vocabulary list :

- I am convinced - Je suis persuadé.e
- Inquiry - Investigation
- Curious - Curieux
- Haunted house - Maison habitée par les fantômes
- Weird = Strange - Bizarre
- Estate agent - Agent immobilier
